Summary

Software Developer and Builder with a strong bias toward shipping, learning fast, and solving real problems. Proven experience in building production-ready AI-powered platforms and tools from scratch, integrating critical services, and deploying cloud-native systems at startup speed.

Passionate about systems, backend, product thinking, and building for scale.

Skills

Languages: Python, Java, C, JavaScript, SQL

Backend: FastAPI, Flask, PostgreSQL, REST APIs

Frontend: React, Next.js 14 (SSR, App Router), Flutter

Cloud/DevOps: AWS (S3, Lambda, EC2, AppRunner, Amplify), Docker, GitHub Actions, CI/CD

Other: System Design, OOP, DSA, NLP, CV, ML.

Experience

DataDive AI (WhatsYum)

Feb 2024 – Present

Software Developer (AI + Backend + Infra)

- Spearheaded development of an end-to-end AI ordering platform using Meta WhatsApp API, Cashfree payments, Petpooja POS, and ONDC delivery network (Porter, Shadowfax).
- Built scalable backend from scratch using FastAPI, PostgreSQL, Docker, AWS S3, Lambda, and GitHub Actions for CI/CD.
- Integrated voice assistant and AI-based product recommendations, leading to improved user engagement and order conversion.
- Owned multiple production-grade features across messaging, payments, logistics, dashboard, and customer flows.

Invsto – Trading SuperApp

Oct 2023 – Mar 2024

Software Developer Intern

- Developed over 10 reusable backend APIs using Python and FastAPI to support trading flows and investment dashboards.
- Improved performance of internal trading modules by 30% and streamlined API design for better scaling.
- Collaborated with cross-functional teams to roll out live features and enhance system reliability.

Self-Employed Tutor

Sep 2022 – Feb 2023

- Tutored high school students in Aptitude, Math, and Logical Reasoning; built foundational skills and confidence.

Projects

Assessify – AI Interview Platform

www.assessify.in — [YouTube Demo](#) — Accepted into AWS Activate Program

- Developed a voice-interactive interview system that personalizes questions based on resumes and job descriptions.
- Full-stack architecture: Next.js 14 frontend, FastAPI backend, PostgreSQL, AWS S3 (resume storage), CI/CD pipelines.
- AI-driven scoring, recruiter dashboard, secure session handling, and real-time response capture with audio.

Brain Tumor Segmentation – Mobile Health AI App

- Built a Flutter app that segments brain tumors from CT scans using a UNET model served via Flask API.
- Hosted on AWS; designed to provide near-instant inference for doctors in low-resource settings.

Word Search Puzzle Game

- Python GUI game with 5000+ word grid; includes meaning lookup for each word solved.
- Built to gamify vocabulary learning; enhanced file parsing, logic building, and UI interaction skills.

Education

B.Tech – Computer Science (AI & ML)

2021 – 2025

Jawaharlal Nehru Technological University - Keshav Memorial Institute of Technology

CGPA: 8.1

Narayana Junior College

2019 – 2021

Grade: 94% – MPC (Math, Physics, Chemistry)

The Hyderabad Public School (ICSE)

2019

Grade: 90%

Leadership & Awards

AWS Activate Founder

- Accepted into AWS Activate for Assessify.

IAYP - International Award for Young People (Duke of Edinburgh)

- A global framework for non formal education and learning.
- Developed transferable skills, increased fitness levels, cultivated a sense of adventure and volunteer in the community.

NCC A Certificate

- National Cadet Corps, Government of India.
- Spent 2 years of training in the junior wing, led my troop of 15 cadets.
- Attended camps, social drives, 10+ social welfare events.

Commerce Wizard

- Issued by the Institute of Chartered Accountants, India.
- Ranked among the top 500 students nationwide in the ICAI Commerce Wizard.
